S I R:

In response to the Office Action dated April 30, 2001,
please amend the above-identified application as follows:

IN THE CLAIMS:

Please replace Claim 1 with the following:

1. A marking device comprising:
- a barrel having a body defined between a first end and a second end wherein the first end has a tip capable of producing a mark;
 - a sheath that fits over the body of the barrel between the first end and the second end; and
 - an end cap removably attached on the second end of the barrel wherein the end cap has a connecting lead extending from the end cap.
